

Quality policy

Quality policy is a part of business policy of the company EDePro Ltd. and represents the starting frame for building and development of the quality managing system, as well as for defining quality goals.

In order to achieve trust, loyalty and recognition with quality, both on domestic and international market, we build quality policy on following principles:

- The high-quality products are main aim of our business policy and strategy
- Continuous improvement of the quality is permanent objective that provides competitiveness of the company on domestic and international market
- To fulfill demands of our customers and create partnership relations through the successful job realization
- Development of a strategic and long-lasting relations with our suppliers
- Professionalism, motivation and encouraging all employees to professional development and acquiring new knowledge
- Development of the teamwork culture and good interpersonal relations
- Financial stability
- Respect of deadlines

The company EDePro Ltd. is committed to provide the high-quality products that will completely fulfill customers' demands.

In order to continuously maintain and improve quality system, management of the company, by regular review this quality policy, contributes its implementation so the quality becomes part of consciousness, working duties and corporative culture for all employees.
